MESSAGE FROM PRINCIPAL'S DESK

Education is not the learning of facts, but the training of the mind to think. -Albert Einstein

Teaching profession concerns not simply with passing on information or knowledge but with awakening a desire to learn and provide means of learning. Teaching is never tedious. It is full of change and variety. Teachers stimulate intellectual curiosity and inculcate the spirit of enquiry, of a national and scientific outlook. But to know is not enough. If there is desire to share the knowledge, then it is also essential to know how to do it. The essence of all good teaching is growth, so that the teacher shall keep abreast not only of the growing students, but of changing ideas in his subject in a changing world. For this, one should remain interested and involved in exploring all the methods of communication.

I feel very happy to meet pupil teacher because it is ultimately you who will make our dream a reality. The India of our dreams will be made our dreams will be a reality only through their efforts. We can lay down certain rules, place some ideas before you but the ultimate responsibility of implementing the ideas lies on teachers, it is their duty. It is very prestigious work because there is nothing above education. According to our scriptures, education is something which makes a man free from fear, poverty, and conflict and gives birth to a new human being. There is no end in education. Any person can start taking education at any age as knowledge transfer is the essential requirement at the present scenario, is established in the memory of great leader of the nation to impart to education to all learners. This institute is going to produce the best Teacher in near future. The college by its achievements has carved a niche in the academic and co-academic areas. The pursuit of excellence in all fields has ever remained our ideal.. I welcome you all on joining this prestigious institution. May I take this opportunity to thank all of you for becoming our partners in education, for joining our journey in inspiring lives and realizing dreams.

MESSAGE FROM VICE PRINCIPAL'S DESK

Education is the passport to the future, for tomorrow belongs to those who prepare for it today. Your attitude, not your aptitude, will determine your altitude. The only person who is educated is the one who has learned how to learn and change. Education not only broadens the horizons of an individual's thinking but opens up the possibilities for the collective growth of the society, the nation and the civilized world of the mankind. It offers dignity, freedom, confidence, ethics and many professional skills. It thus exigent that one chooses an alma mater that prepares us for the next promising venture that is life. We believe that Education cannot be imparted in vacuum to the children; it is only a teacher who can shape the clay and mould it according to the requirements of time and trends of the society. There is no doubt that education is the instrument of social change. But it is the teacher who plays his positive role in bringing such a change. The teacher has to identify the talents and potentials hidden in the learner and nurture these. Teacher is bestowed with the greatest responsibility of nurturing the mind of learners. Practical aspect of training the teachers is emphasized and taken care of special attention to foster among its faculty and students. The college emphasizes to create through educational training qualitative educators for educating the emerging generations.

MESSAGE FROM RESEARCH COORDINATOR DESK

Education is not just a process of giving knowledge for a future job but a lifelong process which creates an understanding of moral and ethical values to guide one's life in a right path. As a parent, you want the best for your child and we are proud to be working with you to ensure that they are given the right knowledge to face the future challenges. Parents, students and the school authorities are a team and we have to complement each other's efforts.

At Guru Ram Dass B.Ed. College, Jalalabad (w). We focus on complete development of our students by involving them in both scholastic & co-scholastic activities as suggested by Panjab University, Chandigarh. I am sure this will help our students to realize, understand & explore their talents. In order to do this, the parents and the college authorities must work together to inculcate certain values in the students. "Sound body has a Sound Mind." Let us allow our children to develop physically & mentally. Students learn a lot of values when they are involved in Sports & Games. Some of these life skills & values cannot be taught in the classroom or at home. GRD B.Ed. College, Jalalabad provides enough opportunities for the students to participate in Sports & games.

"If a plant is carefully nurtured by a gardener, it will become good, and produce better fruits." Therefore, children must be given a good training from their earliest childhood. We are here for the same. I am sure that our students of today, tomorrow will carry forward the Motto of love and unity entrusted in their hands at Guru Ram Dass B.Ed. College, Jalalabad(w).

"Do the work with intention not because of compulsion." With all my love, best wishes and blessings.

Thanks

Dr. Neetika
